

Sprint (4) Release Plan

For sprint 4, there are a few features we expect to get done. First one being a condo simplified reservation system. This is where condo management companies can set up common facilities such as sky lounges and spa fitness. It should have a calendar like interface while being a first-come first serve reservation.

1	Condo owners/management can set up common facilities.		
As a condo owner, I want to be able to set up common facilities so that our clients can view and reserve them.

2	Rental users can view common facilities.		
As a rental user, I want to be able to view all common facilities and their availability.
