Sprint (3) Release Plan

For sprint 3, there are a few features we expect to get done. First one being a condo management company/condo owners can see their properties. The second one is that condo management companies can create a property profile and generate registration keys. Finally, rental users can see their own rented properties.

1	Condo owners/management can view their properties.		
As a condo owner, I want to be able to view my properties from my dashboard so that I can view all of them in one place..			
Dashboard Feature			
Should	High Value	Low Risk	6

2	Condo Management.can create property profile		
As a condo owner, I want to be able to create new properties from my dashboard and generate registration keys so that I can manage every property under a singular account.			
Dashboard Feature			
Should	High Value	Low Risk	6

3	Rental users can see their own rented properties.		
As a rental user, I want to be able to view my own properties from the dashboard so that I can view and get all the information easily.			
Dashboard Feature			
Should	Low Value	Low Risk	6
